

Past Client REVIEWS

This class was incredibly informative and possibly the most interesting CE I have ever taken. I think it could have lasted even so much longer, there is just so much to learn! What an incredible instructor!

Pat was dynamite! Great pictures- interesting topic- thought provoking with kids and sleeping issues- just a fabulous presentation- very interesting! Intriguing!

I would absolutely take this course again.
Exceptional class...very informative!! A lot of new material for me!

Awesome presentation!! I have attended other Myofunctional courses, but your presentation was by far the best and most informative!!! Thank you!!

Just wanted to send you a "thank-you" for your presentation to the senior dental hygiene students in DHYG430 Clinical Techniques IV. I wish you could see the impact you make with your presentation like I get to see when they are in clinic now with a patient, identifying or asking me to check on the landmarks and signs and symptoms you pointed out in lecture. You continue to be a pioneer in this field, and I appreciate you wanting to share not just the basic information but also what you have learned. Thanks again Pat,
